

Primary Care Sport & Exercise Medicine Physician

About Footbridge Centre for Integrated Orthopaedic Care

Footbridge is a brand new, multi-disciplinary orthopaedic clinic - home to several specialist physicians, physiotherapists, imaging and orthotics/bracing specialists. Our mission is to provide a compassionate and efficient patient-experience starting from the initial consultation through to follow-up and related care. We are looking for a Primary Care Sport Medicine Physician who is motivated to work with us to achieve our goals of improving patient access and collaborative care.

Visit: www.footbridgeclinic.com for more information.

We are seeking a Sport & Exercise Medicine Physician who is interested in committing to working in an integrated environment. Interested applicants must value inter-disciplinary collaboration with an emphasis on evidenced based best practices. The ideal candidate would be seeking a long-term position and be interested in playing an integral role in working with the Managing Director and Co-Medical Directors to take Sport Medicine at Footbridge to the next level while remaining committed to Footbridge's overall goals and ethos.

Responsibilities

- Provide assessment, consultation, treatment and follow-up of Footbridge Sport Medicine patients using evidenced based best practices.
- Engage in the development and delivery of a variety of programs related to "Exercise is Medicine" (including screening, assessment and implementation).
- Maintain a strong professional presence within the sport and exercise community, including providing medical coverage at sport events and speaking at related conferences.
- Meet clinical caseload expectations as agreed on with the Medical Director and Managing Director.
- Attend and participate in educational meetings and other events as they arise.
- Eagerly participate in the education of medical students, residents and fellows.
- Participate in continuing medical education/professional development to stay current on all best practices and current research.
- Engage with other practitioners and specialists (as required) in order to insure the best possible clinical outcome for our patients.
- Knowledge and adherence to all Footbridge policies, procedures, protocols as well as standards of professionalism.
- Maintain all legal and professional qualifications and requirements as they relate to Sport Medicine in British Columbia and Canada.

Requirements

- Diploma in Sport & Exercise Medicine.
- Experience working in elite sport within a multi-disciplinary team of practitioners.
- Demonstrated experience participating on collaborative teams.
- Comprehensive understanding of the principles, development and delivery of injury prevention and rehabilitation programs and protocols.
- Excellent understanding of the principals of human performance and how they relate to clinical sports medicine.
- High level of professionalism and excellent ability to relate to and communicate with patients with compassion and a sense of urgency.
- Excitement about “living” the Footbridge vision, mission and participating in the success of our long-term strategy.
- Ability to work in a diverse, fast-paced, dynamic environment.
- Embody a philosophy of professionalism and health and wellness at all times.
- ACLS certified.
- Excellent communication and interpersonal skills.
- Physician in good standing with College of Physicians & Surgeons of British Columbia with adequate malpractice insurance.

How to Apply

Please send your cover letter and CV to:
