

PATIENT INFORMATION (AFFIX LABEL/ COMPLETE) *

NAME: _____
 DOB (Y/M/D): _____
 PHN: _____
 PHONE* #: _____
 EMAIL*: _____

REFERRING PHYSICIAN (AFFIX LABEL/COMPLETE)

NAME: _____
 Practitioner No.: _____
 ADDRESS: _____
 PHONE #: _____
 FAX #: _____

- *Cell phones and emails are required.
- Our office will contact patient to book appointment.
- Images scanned by both CT machines are acquired in less than 48 seconds providing more patient comfort during the scanning process and facilitating more expedient and collaborative patient care.

Exam Requested:

Area of Scan (Circle):

LineUp Scan: RIGHT LEFT BOTH

FOOT ANKLE KNEE

InReach Scan: RIGHT LEFT BOTH

HAND ELBOW WRIST

Clinical History – Reason for Scan:

(include relevant result from X-Ray, CT, US, MRI, Nuclear Medicine, relevant examinations/surgical procedures.)

HEIGHT: _____

WEIGHT: _____

PREGNANT/Breastfeeding

Yes No

Specify any limitations:

Allergies:

LineUP

Certain knee, foot and ankle orthopaedic conditions are best diagnosed with weight-bearing images, and the LineUP CT machine (used to scan foot, ankle and knee) is the first weight-bearing CT scanner of its kind in Canada.

The LineUP permits the physician interpreting the images to assess changes in the position and alignment of a patient's foot and ankle in the natural standing state, and automatically creates 3D reconstructions from its slices, allowing for images of higher bony detail; all resulting in more accurate evaluation, and faster diagnosis and treatment planning.

InREACH

The InReach is a CT machine which scans the hand, wrist and elbow. Both machines deliver very low radiation dose to the patient (about the same as a regular x-ray exam) but result in three-dimensional images (unlike traditional 2D x-ray films).

OUR PHYSICIANS-OFFERING COMPLETE MUSCULOSKELETAL CARE

Sport Orthopaedic Surgeons: Dr. Jordan Leith (Shoulder, Elbow, Hip & Knee), Dr. Andrea Veljkovic (Knee & Ankle), Dr. Keith Stothers (Knee) and Dr. Lindsay Anderson (Knee, Shoulder & Elbow)

Sports Medicine Physicians: Dr. Sara Forsyth & Dr. Mike Wilkinson

Hip & Knee Arthroplasty Orthopaedic Surgeons: Dr. Keith Stothers and Dr. Hooman Sadr

Foot/Ankle Orthopaedic Surgeons: Dr. Andrea Veljkovic, Dr. Alastair Younger, Dr. Murray Penner, Dr. Kevin Wing, Dr. Hooman Sadr and Dr. Oliver Gagne

Special Interest in Primary Care Orthopaedics Foot/Ankle: Dr. Alireza Hootkani

Orthopaedic Consulting Physician: Dr. Peter Gutmanis
